

Leadership Skills for Operational Excellence

Company Summary

Empathic Engineering is a Wisconsin-based consulting firm specializing in continuous improvement, Lean Six Sigma, and leadership development for manufacturing and technology companies.

We deliver training and facilitation services that strengthen the human side of operational excellence, helping organizations achieve measurable performance gains with engaged, capable teams.

Our engagements follow a proven strategy: Kaizen event with change management planning, 3 to 6 months of hands-on execution support, and ongoing evaluation and realignment to protect gains over the long term. All services are available in Spanish-English bilingual formats designed to engage frontline operators and executive teams alike.

Led by Emily Honor Hubbard, we bring frontline manufacturing expertise and a people-first methodology to help organizations build stronger systems through stronger teams.
